

## ENHG Research and Conservation Fund

Each year the group sets aside money in the form of a fund to support research and conservation efforts in the fields of natural history and archaeology in the UAE. The fund is open to members and non-members, and awards are made at the discretion of the committee. An application form may be obtained by enquiry to [abudhabi@enhg.org](mailto:abudhabi@enhg.org).

## Corporate Sponsorship

ENHG is a voluntary service organisation which relies on sponsorship and membership fees to cover the publication and printing costs of *Tribulus*, the funding of Research and Conservation grants costs associated with guest speakers. All sponsors are acknowledged through monthly exposure in Focus, and our members are encouraged to support them whenever possible. Sponsoring ENHG is an opportunity for companies to support conservation and awareness of the natural history and archaeology of the UAE.

## About us

The Emirates Natural History Group (ENHG) encourages and assists members and other interested individuals in the study and appreciation of the natural history and archaeology of Abu Dhabi, the United Arab Emirates, the Middle East and the world at large.

The Emirates Natural History Group (ENHG) was founded in 1976 and is the oldest voluntary service organisation dealing with environmental topics in the United Arab Emirates.

The ENHG provides an active and progressive forum for experts and enthusiasts alike and has younger sister groups in both Al Ain and Dubai.

## The benefits

Throughout the year, the ENHG holds various meetings at which experts from a wide range of fields speak. The group also offers a programme of interesting activities including several field trips. On top of this it brings out a monthly newsletter called *Focus*, and members and sponsors annually receive *Tribulus*: a peer-reviewed scientific journal.

- ### Lectures

The group runs bi-monthly lectures, (open to all) by experts from a wide range of fields all related in some way to natural history: e.g. astronomy, botany, zoology, geology, paleontology, archaeology, local culture & history, environmental conservation and sustainable energy sources.

- ### Field Trips

The ENHG offers a regular programme of day and overnight field trips, usually led by experts, to areas of interest throughout the UAE. Past excursions include a mountain climb, mangrove tour, family weekend, spring annuals, bird watching, etc. Field trips are limited to members only.

- ### Focus

The group sends out a monthly newsletter called *Focus* to all of its members and sponsors, containing information about the happenings of the group over the previous month, upcoming talks, field trips and points of note relating to natural history developments in the region. All members are welcome to contribute to the newsletter.

- ### TRIBULUS

All members and sponsors of ENHG receive *Tribulus*, which is published annually by the group and is the only peer-reviewed scientific journal of its kind in the UAE.

- ### Library

Selected titles from the group's natural history & archaeology library are on loan at meetings.

- ### Book Stall

A variety of natural history books can be purchased at a discounted price from a book stall at the lecture meetings.
